

Infos about License Expiration and Ordering

The software usage is only allowed with Bosch SW projects and needs a valid license.
Our licenses have all a limited period of time (expiration date).
The limited period of time is max. 3 years.

First message about expiration in near future is shown 60 days before.
The expiration date is also shown in the license sheet.

Please contact your local contact person at BOSCH sales office.
The list price is 2000.-Euro for each license. (50% reduction for update included)

After ordering a new license update your existing license carrier (dongle) can be programmed with the new licence.

Hints :

- for updating your license carrier can be remained at your side – internet access is required
- for updating we need infos about your license carrier (dongle) :
 - our internal number (blue label <Customer #xxxx>)
 - or unique serialnumber (can be found in the Codemeter-ControlCenter)
- please note the processing time in your company and at our side
